SETUP & USER GUIDE

Welcome

Thank you for choosing Cancl. This guide gets you up and running in minutes and shows you how to get the most from every feature.

The big idea: Cancl is a real app that runs on your own device. Your data is saved privately in your browser — there are no accounts, no cloud and no subscriptions. You bought it once, and it's yours for good.

Installation

- **Unzip** the downloaded folder (right-click → Extract All on Windows, or double-click on Mac).
- Keep all the files together in the same folder.

Launching the app

- Double-click **index.html**. It opens in your web browser and works immediately — no internet needed.
- **Tip — phone:** open index.html in your browser and choose “Add to Home Screen” for an app icon.
- **Tip — computer:** bookmark the page for one-click access.

Feature guide

- **Overview** — Your live snapshot — what's still to go out this month, monthly & yearly recurring totals, and what's due next.
- **Bills & subscriptions** — Add every bill with its amount and billing cycle. Mark one paid and the next due date is set automatically.
- **Calendar** — See every payment on a monthly calendar so a due date never sneaks up on you.
- **Insights** — See spend by category, your biggest commitments, and your true yearly cost — perfect for spotting what to cancel.
- **Settings** — Personalise, set a passcode, and back up or restore your data.

Step-by-step tutorials

1

Add a bill

Click 'Add bill', enter the name, amount, billing cycle and next due date, pick a category and save.

2

Mark it paid

When you've paid a bill, tap the tick — its next due date rolls forward automatically by its cycle.

3

Spot wasted money

Open Insights to see your biggest subscriptions and yearly total — then cancel what you don't use.

4

Never miss a payment

Check the Calendar or Overview to see what's due next and how many days away it is.

Backup & restore

- **Back up:** go to Settings → Export data to download a backup file.
- **Restore / move device:** Settings → Import data, then choose your backup file.
- Back up now and then — clearing your browser data will erase the app's memory.

Troubleshooting

- **It opens as code/text:** right-click index.html → Open with → your web browser.
- **My numbers vanished:** you likely cleared browser data or opened a different copy. Re-import your backup.
- **Forgot passcode:** clear this site's data in your browser settings to reset, then re-import a backup if you have one.

Privacy

Cancl stores everything locally in your browser. No data is ever sent anywhere. There is no tracking and no account. Your finances stay yours.

FAQ

Does it connect to my bank?

No — and that's the point. You add bills yourself, so nothing links to your bank and your data stays 100% private on your device.

What billing cycles are supported?

Weekly, monthly, quarterly and yearly — and it works out your true monthly and yearly cost automatically.

Will it remind me?

Every time you open it, the overview and calendar show what's due next and how many days away.

Can I get a refund?

As it's an instant digital download all sales are final, but message me with any issue and I'll help right away.

Contact

Questions or feedback? Message me any time through Etsy — [your shop name] — and I'll be happy to help. If you love the app, a review means the world. 

Thank you!

Here's to clearer, calmer money.
